Date of activity	26 th March 2025, 10AM to 1 PM
Venue of activity	Siddharth Public Senior Secondary School, Chandwaji
Total no. of participants/ Delegates	90
Type of participants (Eg- Students, Villagers etc.)	Students
Brief about the activity (In 500 words)	<p>As part of the month-long celebration of World Oral Health Day 2025, the Department of Public Health Dentistry at Nims Dental College & Hospital conducted a dental camp on 26th March 2025 at Siddharth Public Senior Secondary School, Chandwaji. The initiative aimed to raise awareness about oral health, provide early detection of oral diseases, and educate students about the importance of maintaining good oral hygiene. A team of dental professionals from Nims Dental College & Hospital visited the school and conducted comprehensive oral examinations for 90 students. Each student was screened for various oral diseases, including dental caries, malocclusion, gingival issues, and other conditions. Those identified with the need for further treatment were provided with referral cards and were advised to visit Nims Dental College & Hospital for specialized care. Post-screening, a tooth-brushing demonstration was conducted using a dental model. The students were educated on the proper brushing techniques, the importance of maintaining oral hygiene, and how oral health affects overall health, including its links to mental well-being. The session emphasized preventive care and the role of a balanced diet in maintaining healthy teeth and gums.</p> <p>The dental camp at Siddharth Public Senior Secondary School was a successful initiative in promoting oral health awareness among school children. The Department of Public Health Dentistry at Nims</p>
